The Jump Start Experience

Jump Start is a four-week, virtual summer program hosted by the Penn State College of Engineering. Jump Start will be offered May 8 – June 2. Designed for engineering students, this program prepares students to get a jump start in Math 141 and Physics 212 in the upcoming academic year.

Benefits:
- Opportunity to improve your academic performance
- Access to peer mentoring
- Network with other engineering students and professionals
- Attend a weekly professional development seminar
- $100 stipend

Application deadline:
April 14

“The Jump Start program was the absolute highlight of my summer — I felt confident in my classes and had a much better grasp on the material going forward. I am thankful for the Jump Start program and would highly encourage anyone taking calculus or physics to participate!”

— Kevin Bello, civil engineering

“Jump Start was one of my best Penn State experiences. I was able to make so many amazing relationships; I even met my roommates from my first Jump Start. It helped me prepare for my upcoming semesters in higher-level math and physics, which made it easier for me overall. Being able to come back to Jump Start as a program assistant was an even better experience as I was able to help out the students and also help develop the program from the year before. Jump Start was so much fun and I would do it again every year if I could.”

— Rawan Abu-Zaineh, energy engineering

“I absolutely loved attending Jump Start! It definitely benefitted me a lot this last semester, particularly in Math 251. The program is an incredible way to meet new people and make friends from other campuses.”

— Devon Van Rensburg, biomedical engineering
