

JUMP START 2021

Math and Physics

The Jump Start Experience

Jump Start is a four-week virtual summer program at Penn State's University Park campus. Jump Start will be offered May 31 – June 25. Designed for engineering students, this program prepares students to get a jump start in Math 141, Math 250/251, and Physics 212 in the upcoming academic year.

Benefits:

- Opportunity to improve your academic performance
- Access to peer mentoring
- Network with other engineering students and professionals
- Attend a weekly professional development seminar
- \$150 stipend

“The Jump Start program was the absolute highlight of my summer ... I felt confident in my classes and had a much better grasp on the material going forward. I am thankful for the Jump Start program and would highly encourage anyone taking calculus or physics to participate!”

— Kevin Bello

“Jump Start was one of my best Penn State experiences. I was able to make so many amazing relationships; I even met my roommates from my first Jump Start. It helped me prepare for my upcoming semesters in higher-level math and physics, which made it easier for me overall. Being able to come back to Jump Start as a program assistant was an even better experience, as I was able to help out the students ... but also help develop the program from the year before. Jump Start was so much fun and I would do it again every year if I could.”

— Rawan Abu-Zaineh

“I absolutely loved attending Jump Start ... and it definitely benefitted me a lot this last semester, particularly in Math 251. The program is an incredible way to meet new people and make friends from other campuses.”

— Devon Van Rensburg
