The Multicultural Engineering Program Orientation (MEPO) invites corporate partners to participate in the MEPO 2024 Corporate Networking Fair. The networking fair is a wonderful opportunity to connect with diverse future interns and employees—the future workforce. Our incoming first-year students and upper division student staff are eager to begin on the path to their future careers!

Sponsor a Booth to Participate

Engage in an opportunity to speak with talented students who will soon be seeking internship and full-time opportunities. Each sponsor will have the opportunity to provide two to five company representatives per booth with an \$1,000 contribution for an in-person booth and a \$1,000 contribution for a virtual booth (4 virtual booths available). In addition, each corporate partner will receive the resumes of all student participants. **The deadline to register is Thursday, August 22.**

About MEPO

MEPO 2024 is a four-day, in-person experience where incoming first-year multicultural students are introduced to key aspects of academic success and career exploration. Our goal is to build community for our incoming students and to ensure that they have a successful and smooth transition from high school to college.
